# COMPANY PROFILE

TADMUR TRADING & CONTRACTING W.L.L.

# TADMUR HOLDING INTRODUCTION

Tadmur Holding W.L.L. is one of Qatar's leading business conglomerates, owning and operating a number of multi-disciplinary subsidiaries across the country. Since inception in 1985, our companies have catered to various business sectors through a wide range of products, services and solutions.

Our goal is to inspire and support all of our subsidiaries in continuously reflecting our collective identity as a leading industrial group in Qatar. Our subsidiaries utilize our collective experience in the local market to provide the best products, services and business solutions that benefit all our clients and stakeholders. Moreover, the pride with which we uphold our Qatari roots drives us to ensure that, at the root of each corporate undertaking, is the vision of deeper integration into the country's economic landscape and the objective of a significant contribution towards the realization of Qatar's National Vision for 2030; all while maintaining unrivalled global standards.

Each of Tadmur's subsidiaries flourishes under the leadership and perseverance of dedicated teams of skilled, experienced professionals. Each individual team possesses a vast body of knowledge and expertise in their respective fields. As our collective workforce engages in realizing our common goals every day, Tadmur Holding provides them with the support and resources required for achieving optimal productivity, namely through offering them a selection of specialized coaching and knowledge sharing platforms. While our companies function independently, the synergies achieved have led to the growth and expansion that has placed Tadmur Holding and its group of companies amongst Qatar's market leaders in multiple industries.

## **TADMUR TRADING & CONTRACTING INTRODUCTION**

Tadmur Trading & Contracting stands as a cornerstone in Qatar’s construction and infrastructure sector, offering an extensive array of products and services that embody quality and reliability. Our commitment to excellence is evident in our role as a conduit between global innovation and the local market. We take pride in being at the forefront of industry trends, proactively identifying opportunities within Qatar’s construction and infrastructure landscape.

At the heart of our success is our strategic partnership with esteemed global manufacturers, ensuring that we bring nothing short of superior products to our clients. As the exclusive distributor of several internationally acclaimed brands, Tadmur Trading & Contracting has consistently contributed to elevating these brands to market leadership status in Qatar.

Our unwavering dedication extends beyond product delivery. Tadmur Trading & Contracting distinguishes itself through value-added services such as professional installation, meticulous maintenance, and robust technical support. Behind our success is a team of technically adept professionals who span various verticals, each an expert in their respective domain.

As a trusted household name and a preferred destination for construction and infrastructure needs in Qatar, Tadmur Trading & Contracting is committed to customizing solutions that precisely meet market demands.

Our emphasis on trust and customer satisfaction permeates every facet of our operation, as we continually strive for reliability across all our divisions. Tadmur Trading & Contracting aspires to be recognized not only for the superior quality of its products and services but also for its unwavering commitment to exceeding customer expectations.

## SEYANA DEPARTMENT

Seyana Department is the backbone of the HVAC, Water systems, and Retail divisions of Tadmur Trading & Contracting. It is involved with installation and maintenance of water heaters, air conditioners, water chillers, water pumps and home appliances.

The Seyana Department offers on-site support with a GPS tracked fleet of service vehicles covering the length and breadth of the country. Equipped with a state-of-art Field Service Management software for tracking customer requests and scheduling service appointments, the Seyana Department ensures that no complaint goes unresolved.

With a professional call center operation, the Seyana Department helps clients to have a hassle-free maintenance experience and outstanding customer service. The operations team works with a strict deadline to address maintenance calls, while keeping in consideration the safety and energy efficiency of the equipment.

The Seyana Department has established Annual Maintenance Contracts in both residential & commercial markets, and has partnered with facility management companies for HVAC maintenance, duct cleaning, pumps repair and tank cleaning services and more.

## **SCIENTIFIC & MEDICAL SERVICES**

Scientific & Medical Services (SMS) Department strives for excellence in providing healthcare facilities and the medical community in the state of Qatar with the best complete medical solutions.

The journey of the Scientific and Medical Services Division has started with the supply of medical equipment, and has excelled over the past two decades, to impact the healthcare sector in the state of Qatar, until our present day.

We supply Qatar's medical community with industry-leading innovations in infection prevention, contamination control, consumables, and surgical care; and deliver specialized projects for healthcare facilities, including Central Sterilization Departments, Clean Rooms, and remodeling or renovation works. We also provide complete solutions for Central Sterile Supply Departments, operating theatres, infection control management, and surgical solutions for hospitals and healthcare centers.

SMS Department specializes in delivering complete medical solutions, from reliable supply of devices, equipment, and consumables, to trusted maintenance services and full turnkey medical fit-out projects designed to meet our clients' needs.

**Contact:** Mr. Fayrouz Shaikh, Deputy General Manager, Tel: 4433 7010, Fax: 4433 7100  
**Email:** [Fayrouz.shaikh@tadmur-trading.com](mailto:Fayrouz.shaikh@tadmur-trading.com)/[general@tadmur-trading.com](mailto:general@tadmur-trading.com)

A large industrial sterilization chamber, likely a steam autoclave, is the central focus. The chamber has a stainless steel exterior and a black control panel on the right side. The control panel features a digital display showing '30:28' and a prominent yellow emergency stop button. The chamber doors are open, revealing internal metal racks. The word 'STERIS' is printed vertically on the inner door frames. In the foreground, a stainless steel metal cart with wheels is partially visible. The background shows a clean, clinical environment with stainless steel cabinets.

# EFFECTIVELY SERVING THE MEDICAL COMMUNITY

## MEDICAL EQUIPMENT & CONSUMABLES

We are a trusted provider of medical equipment and consumables, delivering reliable solutions that support healthcare facilities in delivering the highest standards of patient care. Partnering with internationally recognized manufacturers, we provide products that meet stringent regulatory and industry standards. Our portfolio is designed to address the operational needs of hospitals, clinics, and specialized medical facilities, ensuring consistent availability, compliance, and value.

## **MEDICAL EQUIPMENT & CONSUMABLES**

### **BRANDS**

#### **STERIS**

STERIS is a global leader in infection prevention and surgical technologies, providing sterilizers, surgical equipment, and cleaning systems for the healthcare and research industries..

#### **CANTEL**

Cantel is a leading provider of infection prevention products and services in the healthcare sector, specializing in medical endoscopy procedural disposables and scopes reprocessing systems, including cleaning, disinfection, storage, and transportation solutions.

#### **KEY SURGICAL**

Key Surgical offers comprehensive solutions for infection prevention in healthcare, focusing on instrument and endoscope reprocessing as well as OR accessories.

#### **MIDMARK**

Midmark, a U.S.-based company, manufactures and sells a complete range of medical furniture, including examination couches for outpatient clinics and procedure chairs for minor procedure rooms. Additionally, Midmark provides design solutions for outpatient clinics, enhancing workflow efficiency and improving interactions between patients and clinicians.

#### **CONSARCTIC**

Consartic supplies high-quality, innovative products for the cryopreservation of biological samples. Our offerings include freezers, liquid nitrogen storage tanks, sample storage tanks, and vacuum lines, along with associated control units and in-house developed software. They also provide turnkey solutions for complete biobanks upon request.

#### **DIVERSATEK**

Diverstaec specializes in manufacturing medical diagnostic products, including pH monitoring systems, reflux probes, and manometry systems.

#### **NEWMED**

Newmed, a subsidiary of Midmark located in Italy, specializes in tabletop sterilizers and ultrasonic cleaners designed for dental central sterile supply departments (CSSDs).

**METRO**

Metro is a global manufacturer of wire shelving and offers a diverse range of carts, stainless steel clean tables, and other storage and productivity products for hospital use.

**NITROCARE**

Established in 2009 as part of the Gökler Group, Nitrocare produces hospital furniture and medical equipment. With over 20 years of experience, the company has expanded its reach from Sivas, Turkey, to international markets.

**HEDLAB**

Hedlab has been a manufacturer of laboratory equipment and furniture since 2001, dedicated to providing quality solutions for various laboratory needs.

**ZOLL**

ZOLL AEDs rise to the occasion with best-in-class technology that empowers people to help save lives. Innovative features and real-time CPR feedback help lay rescuers, EMS professionals, and clinicians quickly and efficiently deliver high-quality CPR. ZOLL AEDs commitment to superior service means you have the support from training through every moment of the rescue.

## FIX-IT MEDICAL MAINTENANCE SERVICES

FIX-IT, a dedicated sub-unit of the SMS Department, delivers total biomedical equipment maintenance services to Qatar's healthcare sector. Our objective is to enable healthcare facilities to operate at peak efficiency by maximizing medical systems uptime and extending its longevity while upholding the highest standards of patient safety.

Through technical expertise, integrated solutions, and responsive service, we ensure that critical medical systems remain reliable and ready to support exceptional patient outcomes.

Our team of highly skilled and certified Biomedical Equipment Professionals is extensively trained across all major medical brands and equipment types, enabling us to deliver consistent, manufacturer-independent support tailored to the diverse needs of modern healthcare facilities.

### SCOPE OF MAINTENANCE SERVICES

#### Preventive Maintenance

Planned maintenance activities designed to minimize equipment downtime, extend lifespan, and ensure continuous compliance with manufacturer and regulatory standards.

#### Corrective Maintenance

Swift and effective troubleshooting, repairs, and replacement of faulty components to restore equipment functionality and prevent prolonged service interruptions.

#### Equipment Refurbishment

Comprehensive refurbishment solutions that restore older or underperforming equipment to optimal working condition, extending usability while reducing replacement costs.

#### Software Updates & Upgrades

Implementation of the latest manufacturer recommended updates and upgrades to maintain device security, and compatibility with evolving clinical requirements.

#### Testing, Calibration & Validation

Precise performance testing, calibration and validation of medical devices, with formal certification provided to demonstrate compliance with industry regulations and quality standards.

#### Relocation, Installation & De-Installation

Professional handling of equipment movement, installation, and de-installation to ensure safety, efficiency, and correct setup in new locations.

## MEDICAL EQUIPMENT SPECIALITY

By specializing in high-demand medical fields, we bring unmatched expertise and tailored solutions that keep critical systems performing at their best.

From advanced clinical technologies to essential hospital furniture, our services are designed to give healthcare providers confidence that every medical equipment is safe, reliable, and always ready to support patient care.

## **WHOLESALE DEPARTMENT**

Wholesale Department operates at scale, serving as a centralized supply source for retailers in the building materials industry. Designed with a clear wholesale-first approach, we focus on volume-driven distribution that retailers rely on to sustain their operations and meet market demand.

We supply with core construction and building material categories. These product lines are selected for their high turnover, essential use in construction activities, and strong relevance across residential, commercial, and infrastructure projects. We are equipped to handle bulk quantities, standardized packaging, and repeat orders, allowing retailers to maintain optimal stock levels without disruption.

Our systems are designed to support efficient ordering, accurate fulfillment, and timely replenishment. Our wholesale network benefits from competitive pricing, consistent product specifications, and the assurance that supply will be available when demand increases.

### **BRANDS**

#### **HENKEL**

Henkel Adhesive Technologies, Water Proofing and Flooring Solutions are a global leader in the market - across all industry segments worldwide. Founded in 1876, Henkel looks back on more than 140 years of success. In 2021, Henkel reported sales of 20 billion euros while employing more than 52,000 people worldwide - a passionate and highly diverse team, united by a strong company culture, a common purpose and shared values.

#### **TERRAM**

Terram geosynthetics is brand of Berry Global, providing a unique range of value-engineered civil engineering solutions. With unrivalled expertise and experience in geosynthetics, accumulated over 40-year period since Terram was first launched, the Company is committed to the development of innovative and cost-effective geosynthetic solutions. Terram is a market leader in the design and manufacture of innovative geosynthetics including geocomposites, geotextiles and geocells.

#### **JOLLY BOARD**

Jolly Board is India's largest manufacturer and exporter of construction boards. The comprehensive product range manufactured includes Specialized Building materials, Bitumen Impregnated Softboard, Plain Softboard, Laminated Softboard, Painted Softboard in various thickness and multiple surface textures.

#### **ELEVATE**

Holcim Elevate is a digital platform for the construction industry that streamlines project management, enhances productivity, and improves collaboration through integrated tools and analytics.

## LANDMARK PROJECTS

**The Dawn Plaza  
Torando Tower**

Supply of EPDM & Accessories

**Al Wakra  
Logistics Park**

Design & Build of Site Works and Infrastructure for Al Wakra Logistics Park Phase 1

**Hamad International  
Airport**

Supply of EPDM & Accessories

**Doha Expo 2023**

Construction and Fit Out of Building for Doha Expo 2023

**Qetaifan Island**

Design & Build of Qetaifan Island North Development Package 3 Water Pack, Lusail, Qatar. (Grespania)

**Lusail City**

CP07-F Testing Commissioning and Miscellaneous Works for Potable Water Network Lusail City

**Alsadd, Almashaf, Ain  
Khalid Helath Centeres**

Supply of Epdm Roof waterproofing & accessories.

**Grand terminal Project  
(Old Doha Port)**

Supply of Salt Barrier & Geotextile.

**Qutaifan  
Water Park**

Supply of Grespania Tiles.

## WATER & WASTEWATER SYSTEMS

The Water and Wastewater Systems Division deals with an extensive range of products and solutions in water and wastewater projects submersible pumps, water pumps, chilled water pumps, firefighting pumps, surge vessels, water heaters, water chillers and water filters.

And, within each category, there is an interesting product mix that helps in solving water & waste water challenges by supplying equipment to pumping stations, wastewater treatment plants, tunnels, desalination plants, power plants and commercial & residential buildings.

The Water and Wastewater Systems Division serves three main market segments - Transport (Utilities & Infrastructure), Commercial buildings (Educational complexes, Healthcare institutions, Ports, Metro stations, Airports), and Industrial (API 610 - Oil & Gas). It works closely with end users, consultants & contractors to address their challenges, and provides advanced water solutions by partnering with innovative players in the global water systems industry.
